

The press conference was held today to share the Democrats' agenda to strengthen American manufacturing and create jobs to make America the world's leader in innovative technologies again, after a decade of damage to our economy.

The discussion included Congresswoman Kaptur's bill, HR 2039, the Congressional Made in America Promise Act, which passed the U.S. House of Representatives on September 15, 2010 by a vote of 371-36.
